Anti-Ageing Express Facial

(15 Minutes)

Step 1 Re9 Smoothing Facial Cleanser

Light weight, super hydrating cream cleanser with plant derived moisturiser. Washes away impurities, won't strip your skin of natural oils, leaves skin feeling soft and smooth. Safe to use around eyes. Apply half a pump onto wet fingertips, rub together to lather, then apply in circular motions onto wet face. Rinse with warm water.

Step 2 FC5 New Cell Exfoliating Scrub

Gently exfoliate to reveal fresh new cells. Restores the look of radiant and healthy looking skin. Apply using circular motions with moistened fingers.

Step 3 Clear Future Soothing Overnight Mask

This lightweight mask helps to calm, soothe and hydrate skin, and even minimises redness. Apply pea sized amount, thin layer to entire face. Leave on for 5mins and rinse with warm water. OPTIONAL: Hand Massage with Shea Butter Lotion

Step 4 RE9 Regenerating Toner

Anti-oxidants and Vitamin B3 in this toner improve hydration (alcohol free and non-drying). Balance pH, removes excess oil and dead skin cells. Lightly spray 1-2 pumps over entire face, or spray onto cotton pad and wipe

Step 5 RE9 Intensive Renewal Serum

Super concentrated Vitamin C and botanical peptides clinically proven to repair and reproduce collagen to diminish fine lines, wrinkles and pigmentation. Protects the skin from future signs of ageing. Apply one pump to fingertips and gently massage into face and neck.

Step 6 RE9 Corrective Eye Crème

Vitamin B3 hydrates the delicate skin around the eye area and caffeine diminishes puffiness, dark circles, fine lines and wrinkles. Apply ½ pump to middle finger, tap fingers together and gently pat around eye area and any crows feet. The heat from the skin will move the product up under the eye.

Step 6 Lifting and Contouring Eye Creme

This rich cream helps skin look firmer and tighter around the eyes, and feel more plump and cushioned. Ophthalmologist - and dermatologist - tested. Dab a small amount with your middle finger along eyesocket bone using feather light strokes.

Step 7 RE9 Restorative Day Lotion

Orange stem cells, Vitamin C/B3 for superior hydration and collagen support that smooths and firms the skin. SPF protection from UVA/UVB sun damage. Comes in regular or extra moisture, and Non-SPF option. Apply 1 pump to fingertips, massage all over face until absorbed (avoid eye area)
