Under 25's Facial

(30 Minutes)

Step 1 FC5 Cleanser (Normal/Dry or Oily Skin option)

Great every day cleanser to remove dirt, makeup & impurities but won't strip the skin of its natural oils. Squeeze a 'pea' sized amount onto wet fingertips, rub together to lather, then apply in circular motions onto wet face. Rinse with warm water.

Step 2 FC5 Exfoliating New Cell Scrub

Gently exfoliates dead skin cells with bamboo, jojoba and carrot extracts to reveal fresh new radiant skin. Apply 'pea' sized amount onto wet fingertips, rub in circular motions all over face avoiding eye area.

Step 3 Clear Future Soothing Overnight Mask

This lightweight mask can help to calm, soothe and hydrate skin, and even minimises redness. Apply pea size amount of mask with fingertips all over skin. Leave in for 10.

Step 4 Genius pads

An innovative multitasker. Revolutionary ingredients delivered to the skin via an advanced delivery system. Improves the overall look and feel of skin texture to restore a healthy, radiant glow to dull skin. Helps reduce the look of dark spots, fine lines and wrinkles. Gently sweep one pad over the skin concentrating on any areas of concern.

Step 5 Re9 Regenerating Toner

Anti-oxidants and Vitamin B3 in this toner improve hydration (alcohol free and non-drying). Balance pH, removes excess oil and dead skin cells. Lightly spray 1-2 pumps over entire face, or spray onto cotton pad and wipe.

Step 6 Re9 Intensive Renewal Serum

Super concentrated Vitamin C and botanical peptides clinically proven to repair and reproduce collagen to diminish fine lines, wrinkles and pigmentation. Protects the skin from future signs of ageing. Apply one pump to fingertips and gently massage into face and neck.

Step 7 Genius Ultra (all over face, not eyes)

Set at middle heat setting, then apply in upward circular motions all over face (excluding eye area), concentrate on frown lines, smile lines and wrinkles. This device gently warms while massaging product deep into the skin using 300,000 ultrasound waves. Device will shut off after one minute, continue for second minute at higher heat setting.

Step 8 Re9 Corrective Eye Cream

Vitamin B3 hydrates the delicate skin around the eye area and caffeine diminishes puffiness, dark circles, fine lines and wrinkles. Apply 1/2 pump to middle finger, tap fingers together and gently pad around eye area and any crows feet. The heat from the skin will move the product up under the eye.

Step 9 Repeat Genius Ultra (eye area only)

Set at lowest heat setting, then apply in upward circular motion around eye area / crows feet, do not use on upper eye lid or directly on eye.

Step 10 FC5 Day Lotion (SPF15)

- Nurturing Day Lotion (Normal/Dry Skin option)
Fresh kiwi cells and pomegranate extract hydrate and moisturise skin with the benefit of sun protection.

- Oil Absorbing Day Lotion (Oily Skin option)
Lightweight, absorbs oil leaving skin with a fresh matte appearance, with the benefit of sun protection.

Use 1 pump in fingertips and spread all over face, avoid eye area.

Step 10 FC5 Night Creme (Night)

Rich moisturizing creme made with mango extract nurtures skin while you sleep, so it feels hydrated and soft in the morning. Use pea size amount and spread all over face with fingertips.
